## Introduction

The [INDEx Survey Findings Report](#), published in May 2020, is based on an analysis of responses to all questions on the INDEx surveys for students and staff who teach. Further data tables have since been compiled for staff according to how they identified their role in response to Q4. With the majority of respondents nationally self-identifying as a lecturer (71%), the remaining 29% comprised a variety of other roles for Staff Who Teach. For ease of comparison, the responses have been combined to form 'Other Staff Who Teach' in the data tables in this appendix for those who self-identified as: academic dean, educational developer, instructional designer, learning technologist, library staff, manager, other, technician or tutor.
